## WHO WE ARE

Our companion services are provided by certified travel companions with experience in managing people with some disabilities, wanting to travel with the appropriate level of supervision. Travel companions are seasoned travelers trained in safe travel procedures and experienced in managing emergencies or other unplanned events.

Owner, Maggie Lazare, is a trained and experienced registered nurse of over 30 years, advanced practice registered nurse (APRN), aging expert, with special training in managing the elderly and those with memory issues. With her experience, devotion, skills, and a commitment to service excellence, she is sure to provide a safe travel experience for your loved one.

## SERVICES

We offer expert companion services for your loved ones as they travel or relocate from one location to another. We specialize in helping those with mobility issues, mild dementia symptoms or those traveling alone like unaccompanied minors.

## TRAVEL DESTINATIONS

North & South America

Europe

Asia

Africa

### Why consider a travel companion

- For special occasions (weddings, family reunions, special trips)
- You are unable to take time off to travel with your loved one
- You would feel better if your loved one was looked after as they travel
- You need to relocate your loved one from one setting to another (i.e. home to assisted living, moving in with adult children or other family, moving from one state to another, one continent to another)

### Our services are comprehensive and include

- Comprehensive history (health and behavior, routines)
- Travel/flight booking
- Transportation
- Meals
- Lodging
- Safety and supervision
- Comfort and well-being

### How we work

1. You book a consultation by clicking on the 'WhatsApp' button
2. We do a 'get to know you' call, (could be a zoom), based on the complexity of the traveler or trip
3. Both parties agree on the details
4. We send an agreement that needs to be reviewed and signed
5. Payment arrangements are made (travel expenses, retainer and companion fee based on the particulars, length and complexity of the trip)
6. Communication is fluid throughout the whole process
7. Debrief at the end of the trip

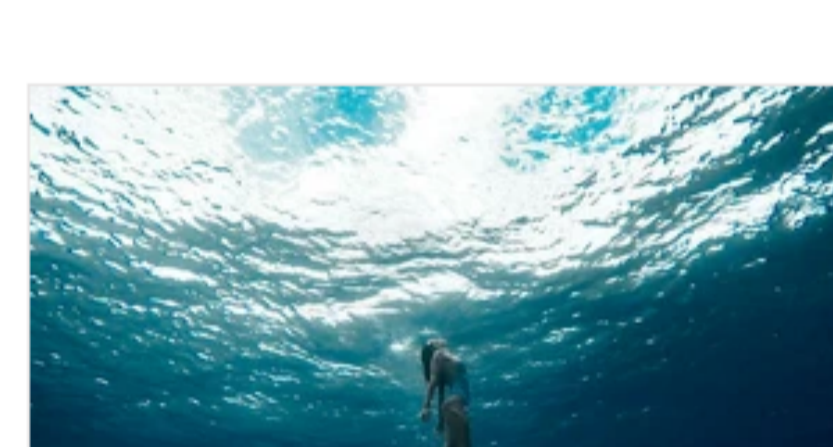

### Why you should you consider an expert travel companion for your child or loved one

1. To provide a safe experience for your loved one as they travel
2. To give you piece of mind, which is priceless, knowing your loved one is in the hands of a professional, trained and caring companion
3. To relieve you of the burden of traveling with your loved one, spending precious time making travel arrangements, and ensuring a safe travel experience for your loved one
4. Professional CV of the traveling companion is provided upon request
5. Traveling companions are trained and insured
